“ This is my 1st born beautiful child. she was taken from me by Kenneth Diggs Jr. who is still able to walk around free. I'm begging the public for help, I am her mother and want to get justice for my baby girl. I will never get to see her smile or hear her sweet voice again because of him,

The man you are looking for is still in the area. He is from Montgomery County. I was just with someone who spoke with him on the telephone. I was listening. He is still in the DC area. I cannot give too many details as I don't want to get killed myself but know that everything I learned has been reported to the Howard Co police and DC MPD. I wish you the best of luck and hope this helps you find comfort that there's some good people still left out there.
