“ dear grandpa, I want you to know that I love and I miss you so much and that you were a very special man in my life. I enjoyed everything that you did with us and did for us all the beach days, the pool days, taking us to the store and letting us spin a crap load of money, the paying us to do her chores because you knew how much we all hated taking the trash out the trying to find something to do with us because you knew we were bored the trip to the mountains where grandma seen a snake and was freaking out and said she had to go back to the car cause she didn't mess with those things even the time your truck caught on fire and he told me to go find the biggest bowl in the house and fill it up with water so I could help you put it out I remember it all and I appreciate every last memory you gave me and the family I still can't believe all this is real in wish that this was all just a very bad dream that wasn't real and never happened. I get up every morning and the first thing I think of is "did you visit Mr. toothbrush today" because I know that's the first thing you would've said to us when you seen us in the morning. grandpa, I want you to know you are the best grandpa ever that anybody could've asked for plus more. i love you so so so much n ill see you again soon💋
