“ *To all of you, I'm so sorry for the loss of your mom. When I first was told I immediately sat and cried. Y'all house was the first house I had ever stayed. Your mom treated me as her very own and I will forever love her for the kindness. You all are in my prayers. I love each in every one of you! Stephanie*

“ Lyles Children,
I was devastated when I got the sad news about the loss of your mom. I remember when I first met Ms. Betty I knew instantly she was the fun mom! But she definitely would get on you and fuss you out if you did wrong. Let y'all not have that house clean when she got home...lol! But to me she was so easy to talk to about things I could never talk to my mom about. She always gave good advice and never judged. I felt so much love from her. The more I was at your house in Huntington the more I wanted to be there. I cried when I learned of her passing but I was also relieved to know that she is now at peace and is no longer suffering. I pray you all find strength during this difficult time. Your mom is now safe in His arms.
🙏🙏

“ I share my FB post because encompasses everything one can say about you:

Why do the good die young, why are the greatest gone so soon from us when great is what we all need, Betty, you were a great, will always be a great in my world, you were my rock when I needed compassion, you were my friend when I needed a listener, you were the ONLY person who responded to my outcry, never did you judge me, never did you condemn me for accusations posed by authority, never would you have separated my girls, only one was your blood but it was just as thick for your granddaughter's sister and you saw no difference between them regardless of their relation to you, their color, you were only concerned for their well-being and what was in their best interest! I hold you in the highest regard one can hold a human, you were a prime example of what humanity among all should exemplify! We shared many things, including our middle name, but most of all I was privileged to have shared in your life! I am devastated about your loss but I am hopeful you are now at peace and with those you lost far too early. I love you and will miss you until we meet again, you got me through tough times and you will get me thru this one as well. I am deeply saddened for your children and grandchildren and great grandchildren, in addition to your other surviving family members, because you, Betty Ann Lyles, were truly one of a kind and the world needs exponentially more of you in the world!
