“ *Blair and I went to school together and graduated a year apart. We later worked together at ARS for a while and became closer. This past year, I talked with Blair alot about different things and she was always there to support me when I had to come to the ER. When she was there it wasn't so much a dreaded visit because she was always there to talk to during the wait. In May I had to have surgery and when she saw my name on the transfer board she immediately came back to see me and see if I needed anything, even just to talk. She was a great person and so full of life. She will truly be missed by so many. 💜*

“ *My heart is so sorrowful of your loss. Blair and I started to work the same day at Charles Regional Medical Center. She was beautiful, friendly and had a heart of gold. She would share her family with talks of how much she loved and adored them, especially a niece that would stay up and wait for her to come home from work when she came to visit.*

Gone too soon; I shall miss her and my prayer for the family is that GOD will give you comfort in days to come. GOD BLESS!
