“ I used to give Dave a call and tell him that I had something wrong with my vehicle and asked if he would mind taking a look to see what was wrong. Dave always said I'll be right down. !5 minutes later he would show up on his lawn tracker asking me what's the issue. It did not matter if it was light or dark out, Dave always came to help!

“ I can't think of any words that I could read or say that would make our feelings of loss any easier to deal with. I've known Dave since he was six years old and can tell you first-hand that he was a wonderful, fun-loving kid who grew to be a very sensitive, caring, and talented man.

*He loved his wife and family very much. He took pride in demonstrating his extensive automotive knowledge. And, he welcomed any opportunity of feeling needed, as he was constantly lending a hand to others.*

*Dave and Cheryl stayed at my home in Florida when Lou (his father) passed away. We commiserated and laughed as we recalled memories of good times; leasons learned from bad times; and stories of shared times our families had together through the years.*

*Dave left us too soon. I am privileged to have known him, and proud to have considered him a dear friend in my life. I will miss him.*
