“ *It's March 13 and as I visited the doctor's office I found out that Dena had passed away. To say I was shocked and saddened doesn't say it. From the rare visits to the office we would exchange our medical war stories and then we would laugh. I wish I could have known her on a more personal level, because I know she would have been a great friend. To her family I send my sincerest condolences.*

“ *Of course, probably like many others, we knew Dena from the "doctor's" office. She was so reassuring and always positive, which made her very successful at what she did. She had a way of engaging people making one feel comfortable. Though we only knew her for a couple of years, she was the constant that made our visits positive. We will miss you Dena. Your journey was quite successful. Thank you from the bottom of our hearts.*
