“ How do I find the words to say good bye. Our story started out as 2 - 7 year old little girls standing on opposite sides of the street waving to each other. Over the next 66 years we shared so much, we cared so much. We shared our most intimate feelings. We laughed and we cried. I am going to miss the laughter we have shared and the funny stories of our growing up. We both faced hard times but they made us stronger. We shared story after story of memories. You have left me with so many special memories. However, they will never fill the hole that will forever be in my heart. Part of my heart will go with you my dearest friend. We called each other "sister". I'm trying not to be sad because I know you are with your beloved Burnie and he will take good care of you. I won't say good bye, I'll just say till we meet again and I know we will. I love you and will miss you forever my "Sister".

“ My sister, my friend. Some days are harder than others, and today is one of the others. I cannot believe that I cannot come to visit you, call you, laugh with you again in person, but one day... for now, I have comfort knowing that you and Burnie are together again, as well as reuniting with our family who went before you. I will always cherish the time the time I was able to spend over the last several months together and hold each memory close to my heart. I love you Donna. Until we meet again...

“ I often check the obituaries on this page, because I hope I never see anyone I know. I try to keep up with things in Charles County, especially since I moved to Virginia in 2019.

Seeing Donna's picture, instantly sent me back to memories in Charles County. I worked with Donna at Nick's of Clinton.

Donna was one of the few reasons why I looked forward to working long hours, standing on our feet all day.

Donna was such a wonderful, special lady, that clearly showed some physical health issues, but she always pushed through and made every day better than the last. Such a kind spirit and sweet laugh and smile.

I will always think of the evenings we sped away from Nick's parking lot to go home, and while I was fast to leave, Donna had a lead foot as heavy as mine!

She kept up with me on St Charles Parkway and when I turned off before she had to, we always honked our horns at each other.

Donna was such a special co worker because she became a friend, too, even a mother figure because I had lost my mother in 2012. I felt like Donna always looked out for me.

I will always appreciate her for making me feel so special, whenever we were together.

Laurie, thank you for sharing your memories of my mom. You gave me a moment of laughter through tears when you talked about her "lead foot". She always said she enjoyed working with you. My mom had a way of always looking out for others, and it makes me happy to know she was there for one more person.

“ Dear Donna, I am struggling to find words. I am so saddened by the loss of you, my sister. I feel orphaned. You were always in my life. It was too hard for you, always. You persevered through so many physical challenges, and always got up, dusted yourself off, and kept moving. Now the part of me that thought there was more time is frozen. The part of me that was you is lost. I will always love you. Rest in peace, and send my love to all those who have gone before us. We've got your back. Your loving sister, Davita
