“ *I lived next to Ron And Lou Ann for 30 years. I have so many memories of them. Ron always working on some project. I can see him pushing his wheelbarrow thru the yard. They both were devoted to their children and grandchildren.*

MH

“ Ron was in my rookie class with the United States Park Police in April 1973. He was already a seasoned paramedic at the time and quickly jumped from Patrol to the Aviation Wing, eventually becoming a pilot on the various reiterations of the USPP Eagle helicopters. He saved uncountable lives in rescues and by landing his helicopter in hazardous conditions to medivac the critically injured to the hospital. Ron was the ultimate professional, always focused, and a credit to the Force. He loved flying and I take comfort knowing he is now enjoying flying above the clouds with the Angels.
