“ *My condolences to the family of Paul. I worked with Paul at NSWIC Indian Head from shortly after I came to IH in 1959 until I retired in 1991. Paul worked in my organization, the Pilot Plant, for many years as a Propellant Operator and Propellant Man. Paul was one of the plants best operators. I could fully trust Paul to perform any test or operation exactly as specified. Paul worked with quantities from grams to over 2000 pounds. Paul was excellent at providing basic training to new operators and engineers. Paul was a friend during all those years. We had not had much contact in the past few years. I miss the country sausage he provided me for several years. I am sorry I was not able to attend any of the services for Paul but I was away and did not return until Friday afternoon. Paul was an outstanding person to know and have as a member of the Pilot Plant organization at NSWIC. May he rest in peace.*
